

Dr. Tuhin Maity & Prof. Saibal Roy
Micropower Systems & Nanomagnetism
tuhin.maity@tyndall.ie : Saibal.roy@tyndall.ie

Project 1: Investigation of dynamic properties of exchange coupled magnetic nanopattern by micromagnetic simulation.

Project 2 Investigation of dynamic properties of exchange coupled magnetic nanopattern by experimental analysis.

Both the projects are for 10 credits. 13.3 hours a week for 11 weeks should be fine.
